Recommendations

Detected Safety Issues

Safety Issue	Potential Risk
• Unsafe posture while working on elevated surfaces	Fall from height
• Open edges without barricades	Trip and fall injuries
• Potential trip hazards due to scattered materials	Head or body injury due to lack of visibility
• Safety vest not detected on workers	critical

AI Recommendations

- Ensure workers wear safety vests for visibility.
- Install barricades or guardrails along open edges.
- Remove scattered materials to prevent trip hazards.
- Provide training on safe working postures for elevated surfaces.
