Safety Issues Found

3

Recommendations

Detected Safety Issues

Safety Issue	Potential Risk
Improper storage of rebar causing trip hazards	Trip and fall due to scattered rebar
Worker handling rebar without gloves	Hand injury from handling rebar without gloves
Wet surface near the work area	Slip and fall due to wet surface

AI Recommendations

- Organize and secure rebar to eliminate trip hazards - Ensure workers wear gloves while handling sharp or heavy materials - Dry wet surfaces or implement proper drainage to prevent slips
